

Career Opportunity

The **Koch Associate Program** is a highly selective, year-long career opportunity for promising leaders and entrepreneurs interested in a non-profit career. While in the program, Associates develop the knowledge, skills, and experience necessary for successful futures with market-oriented think tanks, policy institutes, or other non-profit organizations. Participants learn to apply Market-Based Management®—a management philosophy based on the principles of a free society—while

advancing liberty.

During the program, Associates work in a full-time role with a reputable organization four days each week. They then come together one day each week in a classroom setting at the Foundation to engage in reading discussions and group projects, network with their peers, hear guest speakers, and learn to apply Market-Based Management through interactive exercises and workshops.

The project assignments cover fascinating areas including:

- policy research
- measurement and analysis
- marketing and communications
- grassroots education
- donor relations

Applications are due by March 16, 2009.
